MESSAGES

GENERAL INFORMATION**DISTRICT**

District data are an aggregate of the individual student data from the elementary, middle and high schools.

GRADE

P = Primary Grades.

04...12 = Grade 04 through Grade 12.

RCG (Recognition Points)

Number of recognition points school has passed in Accountability Cycle 2008.

Asterisk (*) identifies schools who have not met the dropout and novice reduction requirements and are not eligible for rewards.

PACE (Pacesetter schools)

Y = Pacesetter school

NOTE

a = School's service area changed. The school is held accountable through the district accountability scores.

c = School is accountable though school's scores and district non-academic data for the baseline years.

d = School is reconfigured. The school is held accountable through school results and district growth line, district assistance line, and district novice reduction rate.

e = Reconfigured School or New School in this school year. The school's first accountability biennium index is the two-year average of the school's scores and the district's non-academic index at the corresponding grade level. The goal line, assistance line and novice reduction rate are calculated from the school's scores and district non-academic data for the baseline years.

f = Reconfigured School that is using the District Baseline (goal) for Accountability. School's baseline index, goal line, assistance line and novice reduction rate are based on district scores at the high school level. Due to incomplete non-academic data, district non-academic data are used to calculate the school's non-academic index. This is a special case for new high schools that do not have all grades in the prior year.

j = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.

r = School is considered a reconfigured school and the student population is reconstituted for calculation of accountability scores.

w = State Board approved school configuration waiver for calculation of accountability scores.

RELATED TERMS**Recognition Points**

A special one-time reward amount is given to schools as they meet or exceed recognition points -- 55, 66, 77, 88 and 100 -- on the CATS 140-point scale. When a school passes a recognition point, it receives one share of reward money.

Pacesetter Schools

The highest-scoring five percent of all schools are called Pacesetter Schools. This designation applies only after they have reached the fourth recognition point (88) and if they have met the dropout rate and novice reduction requirements.

Dropout Rate Requirements

To be eligible for rewards, a school must have an average dropout rate of less than 5.3 percent over the biennium or an average rate that is at least one-half of one percent lower than its average rate of the previous biennium. However, schools with biennial average dropout rates above six percent will not receive rewards.

Novice Reduction Requirements

To be eligible for rewards, a school must reduce its percentage of novices so that, by 2014, it has five percent or fewer of its students in the novice category.

Statistical Link (Concordance)

Kentucky's assessment and accountability program is ending a transitional biennium.

- In 2007, multiple and extensive changes occurred in CATS including new student performance standards for novice, apprentice, proficient and distinguished.
- The changes require a statistical process be used to link data from 2007 and 2008 to the previous CATS data trends (1998-2006).
- TA concordance process provides this statistical link the 2008 Kentucky Performance Report (KPR) and yields two accountability index scores – Adjusted by Concordance and Nonadjusted.
- Both scores provide valuable information depending on their uses— accountability or instruction.
 - The Adjusted Accountability Index continues accountability. It links the 2007 and 2008 performance to the past system. The score is related to the performance trends, the original goal and assistance lines in a school's or district's growth chart.
 - The Nonadjusted Accountability Index is calculated for 2007 and 2008 using new content area weights and new cut scores for student performance (novice, apprentice, proficient and distinguished). It provides the current position of a school or district compared to absolute goal of proficiency (100) by 2014.

* The Adjusted Accountability Index for 2007 and 2008 are calculated with concordance tables at each level (elementary, middle and high) to link CATS Accountability 1999-2006 to CATS 2007 and 2008.

MESSAGE descriptions are located on pages 3 and 4 of this report.

MESSAGES (continued)

SCHOOL ACCOUNTABILITY STATUS

Meets Goal

The school's accountability index meets or exceeds its goal point, and the school meets the dropout rate and novice reduction requirements. It is eligible for rewards.

Meets Goal - Drp, Nov (Meets Goal - Dropout Rate and Novice Reduction)

The school's accountability index meets or exceeds its goal point, but the school does not meet the dropout rate and novice reduction requirements. It is not eligible for rewards.

Meets Goal - Drp (Meets Goal - Dropout Rate)

The school's accountability index meets or exceeds its goal point, but the school does not meet the dropout rate requirements. It is not eligible for rewards.

Meets Goal - Nov (Meets Goal - Novice Reduction)

The school's accountability index meets or exceeds its goal point, but the school does not meet the novice reduction requirements. It is not eligible for rewards.

Progressing

The school's accountability index falls below its goal point and meets or exceeds its assistance point.

Progressing - Dcl, Drp, Nov (Progressing - Decline, Dropout Rate, Novice Reduction)

The school's accountability index falls below its goal point and meets or exceeds its assistance point. The index also shows a decline from the previous biennium. The school does not meet the dropout rate and novice reduction requirements.

Progressing - Dcl, Drp (Progressing - Decline, Dropout Rate)

The school's accountability index falls below its goal point and meets or exceeds its assistance point. The index also shows a decline from the previous biennium. The school does not meet the dropout rate requirements.

Progressing - Dcl, Nov (Progressing - Decline, Novice Reduction)

The school's accountability index falls below its goal point and meets or exceeds its assistance point. The index also shows a decline from the previous biennium. The school does not meet the novice reduction requirements.

Progressing - Drp, Nov (Progressing - Dropout Rate and Novice Reduction)

The school's accountability index falls below its goal point and meets or exceeds its assistance point. The school does not meet the dropout rate and novice reduction requirements.

Progressing - Dcl (Progressing - Decline)

The school's accountability index falls below its goal point and meets or exceeds its assistance point. The index also shows a decline from the previous biennium.

Progressing - Drp (Progressing - Dropout Rate)

The school's accountability index falls below its goal point and meets or exceeds its assistance point. The school does not meet the dropout rate requirements.

Progressing - Nov (Progressing - Novice Reduction)

The school's accountability index falls below its goal point and meets or exceeds its assistance point. The school does not meet the novice reduction requirements.

Assistance - Level 1

The school's accountability index falls below its assistance point. The school is in the highest third of total schools in the three assistance levels.

Assistance - Level 2

The school's accountability index falls below its assistance point. The school is in the middle third of total schools in the three assistance levels.

Assistance - Level 3

The school's accountability index falls below its assistance point. The school is in the lowest third of total schools in the three assistance levels.

DISTRICT ACCOUNTABILITY STATUS

Exemplary Growth District

All schools in the district are classified as "Progressing" or "Meets Goal" and met the dropout and novice reduction criteria established for the schools.

Audit Level 1 District

One or more schools in the district are classified as "Assistance Level 3" and were not classified as Level 3 in the previous accountability cycle.

Audit Level 2 District

At least one school in the district is classified as "Assistance Level 3" for two (2) or more consecutive accountability cycles.

* The Adjusted Accountability Index for 2007 and 2008 are calculated with concordance tables at each level (elementary, middle and high) to link CATS Accountability 1999-2006 to CATS 2007 and 2008.

MESSAGE descriptions are located on pages 3 and 4 of this report.
